EDGE™

48-701

Medium duty cut resistant industrial

Cut | Medium Duty

Cut, oil and abrasion-resistant gloves, granting good grip in dry conditions

- **Optimized durability:** EDGE™ 48-701 industrial gloves' palm PU coating provides a high level of abrasion protection (ANSI 6), moderate cut resistance (ANSI A2), a good grip in dry environments, and better protection against oil than knitted or cut and sewn safety work gloves
- **Increased protection:** EDGE 48-701 protective gloves provide two levels of cut performance, affording robust, all-round hand protection in mediumweight applications
- **Enhanced features:** A more affordable alternative to medium-duty leather, thick cotton or aramid gloves, EDGE™ 48-701 high-quality work gloves offer a seamless liner and knitted wrist, which deliver form-fitting comfort, good dexterity and added wrist protection

Industries

- Automotive

Applications

- Aeronautics
- Assembly line
- Assembling metal parts and components
- Handling sharp or irregular metal pieces
- Molding
- Plastic injections

EDGE™

48-701

Medium duty cut resistant industrial

Key Features

- **Palm PU coating:** High level of protection against abrasion and cuts
