HyFlex™

11-928

Dual protection from cuts and mechanical fluids

Cut | Ergonomic Protection | Heat | Medium Duty

Protective gloves with superior grip, ensuring cut and oil resistance

- **Advanced defenses:** HyFlex™ 11-928 industrial gloves grant a glass-free, aramid liner that is designed with INTERCEPT™ Technology to provide advanced cut resistance
- **Specialized protection:** Free from silicone and DMF, these abrasion-resistant gloves ensure optimal personal protection and prevent contamination of metal before painting
- **Enhanced grip:** These safety gloves deliver high grip performance for safer handling in dry to slightly oily applications
- **Improved durability:** In addition, these mechanical protection gloves feature a double-dipped, RIPEL™ Technology-enhanced, nitrile coating that guards against oil and industrial fluid exposure, while providing high durability and longer wear life
- **Added safety:** For enhanced workplace safety, these HyFlex™ gloves also offer Level 1 Contact Heat Protection

Industries

- Automotive
- Energy

Applications

- General maintenance
- Handling sharp or irregular metal pieces
- Handling of glass sheets, sharpedged objects
- Grinding
- Machining / Stamping / Cutting

HyFlex™

11-928

Dual protection from cuts and mechanical fluids

Key Features

- **Glass-free liner made with INTERCEPT™ Technology:** Enhanced cut protection
- **Silicone- and DMF-free:** Prevents metal contamination prior to painting
- **Reliable grip:** Safer handling of dry to slightly oily applications
