AlphaTec™

37-310

Improved grip, dexterity and flexibility

Thin, yet durable, food processing gloves, offering light chemical protection

- **Reduced risks:** AlphaTec™ 37-310 safety gloves' lack of inner cotton flocking reduces lint contamination risks, while their latex-free composition makes them usable for those with Type I allergies
- **Advanced ergonomics:** Their thin, 8 mil/0.2mm palm offers these AlphaTec™ gloves heightened dexterity, while an "engineered" fit means they are ideal for use either as an overglove or independently
- **Food handling compliance:** They also boast European food handling certification
- **Specialized defenses:** AlphaTec™ 37-310 PPE gloves possess EN 374 Type B chemical protection, guarding against light acids, grease, oils and liquids
- **Added protection:** In addition, these industrial safety gloves have a long cuff, extending to the forearm, for further personal protection

Industries

- Food Processing
- Agriculture
- Infrastructure Maintenance
- Chemical
- Industrial

Applications

- Janitorial use
- Fruit and Vegetable Processing
- Dairy Processing
- Cleaning
- Prepared Meals

AlphaTec™

37-310
