NEWS RELEASE

13 December, 2004

**ANSELL LIMITED ANNOUNCES RESULTS OF
OFF MARKET BUY-BACK**

Ansell Limited announced the final results of its buy-back, or tender offer, to purchase up to A\$155,000,000 worth of its Ordinary Shares (including Ordinary Shares held as American Depository Shares ("ADSs")). The offer expired at 5:00 p.m., Melbourne time, which was 1:00 a.m. U.S. Eastern Standard time, on Friday, December 10, 2004.

Based on the final count of the number of Ordinary Shares (including those underlying ADSs) accepted/tendered in the offer, 31,509,539 Ordinary Shares (including 45,239 Ordinary Shares held as ADSs) were properly tendered and not withdrawn at a price per share of A\$9.20.

As the total number of Ordinary Shares (including Ordinary Shares held as ADSs) tendered into the Buy-Back exceeded A\$155 million, a scale back was applied as set out in paragraph 4.1(a) of the Buy-Back Booklet and as amended by announcement to the ASX on 25 November 2004, resulting in the purchase of 16,847,345 Ordinary Shares (including those held as ADSs) pursuant to the offer. After completion of the Buy Back, Ansell will have approximately 159,475,741 Ordinary Shares (including those held as ADSs) issued and outstanding.

It is expected that the buy-back proceeds will be mailed to shareholders participating in the buy-back by 21 December 2004.

This press release includes a "forward-looking statement" (within the meaning of the United States Securities Exchange Act of 1934, as amended) and information that is based on management's beliefs as well as assumptions made by and information currently available to management. The forward-looking statement relates to our expectations and beliefs regarding a future event, specifically, the number of Ordinary Shares that will be outstanding following the completion of the offer, which is beyond our control. We believe that a number of important factors, risks and uncertainties could cause our actual results to differ from statements made in this release, including, without limitation, any variation in the number of Ordinary Shares accepted/tendered as determined by our share register, and other risk factors detailed in our filings with the SEC and ASX. Should one or more of these risks or uncertainties materialize or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, planned for, estimated, expected or projected.
