

## SAFETY. tailor-made

### WORKPLACE INJURIES ARE STILL A BIG PROBLEM

In 2015, there were approximately 2.9 million nonfatal workplace injuries and illnesses such as burns, lacerations, cuts and fractures as well as latex and chemical allergies reported by private industry employers in the US.<sup>1</sup> The previous year in the EU-28 zone, there were close to 3.2 million nonfatal accidents.<sup>2</sup>

Beside severe effects on the individual, all types of injuries can also represent particularly serious drawbacks for a company's business performance. The associated direct costs of an injury range from medical expenses to rehabilitation costs and workers' compensation, whereas indirect costs are caused by replacement workers, accident investigation, productivity loss and demotivation of workers.

An addition, global and local trends have an impact on your company's economic performance, such as;

- Increased health and safety standards and regulations
- Increased focus on sustainability and waste reduction
- Vendor standardization and consolidation
- Global standardization in supplies and processes

The resulting demands for compliance, consolidation and simplification necessitate rapid changes and are forcing companies to find new ways to reduce PPE costs without sacrificing worker safety.

### AN INTEGRATED APPROACH TO IMPROVE YOUR BUSINESS PERFORMANCE

We've learnt a few things over the last 45 years of doing safety assessments. Unlike other PPE manufacturers, we know that every company is different and so is every worker. And all the operations they undertake and safety requirements they have are unique in their own way.

This also means that every Ansell**GUARDIAN**<sup>®</sup> assessment is unique. Each of our customers receives a tailor-made safety solution that is backed up by data collected by 600+ safety experts from over 17,000 individual assessments since 2010. **Ansell**GUARDIAN**<sup>®</sup> assessments lead to injury reduction, reduced cost to protect, increased compliance as well as PPE portfolio complexity reduction.**

Ansell's global experience, as well as our proprietary software systems and extensive database help us to provide personalised best practice recommendations for our clients. And our in-depth understanding of risk assessment and protection allows us to develop tailor-made solutions, which naturally comply with the ever-changing regulatory standards.

This is how we keep our customers and their employees safe.
