Continuing Professional Development Programs

Ansell designates the online course activity for contact hours as indicated with each course listing. Each self study course includes a post test. A passing score of 85% is required to receive an electronic certificate of completion.

- 1. Basic Consideration of Radiation Safety and Barrier Protection (2.75 contact hours)**
Examine radiographic risk and strategies to prevent adverse reactions.
- 2. Chemical Allergy Masquerade (2 contact hours)**
Understand the potential causes of Type IV chemical allergy and learn how to identify symptoms, proper treatment and reduce risk.
- 3. Chemotherapy and Medical Gloves (2 contact hours)**
Identify the risks associated with handling cytotoxic drugs and other antineoplastic agents and review strategies for optimal protection.
- 4. Double Gloving — A Standard Practice in Surgery (2 contact hours)**
Review the evidence and recommendations for double gloving to promote safety and reduce healthcare worker and patient risk.
- 5. Ergonomics in Healthcare (2 contact hours)**
Examine the multiple ergonomic risks in healthcare and implement evidenced-based practices to proactively improve healthcare worker safety.
- 6. Hand Hygiene: Skin and Hand Care in the Healthcare Setting (2.25 contact hours)**
Healthcare-Associated Infections (HAIs) lead to significant mortality and cost. Learn best practices for hand hygiene and ways to maintain healthy skin while reducing infection risk.
- 7. Improving Outcomes in the Operating Room (2 contact hours)**
Identify strategies to reduce potential exposure to pathogens and improve efficiency with single use items and turnover kits.
- 8. Infection Control in the Operating Room (2 contact hours)**
Examine multiple infection risks and best practices to prevent surgical site infections in the operating room.
- 9. Surgical Gloves and Electrosurgery (1 contact hour)**
Review safety issues related to surgical gloves and the use of electrosurgery.
- 10. Understanding Latex Allergy in the Healthcare Setting (2 contact hours)**
Understand the incidence, causes, symptoms and treatment of Type I latex allergy and identify strategies to reduce the associated risk.

In-Service Presentations

Face-to-Face or Virtual. Course duration can be customised and will qualify for CPD hours accordingly.

- 1. Chemical Allergy Masquerade**
Understand the potential causes of Type IV chemical allergy and learn how to identify symptoms, proper treatment and how to reduce risk.
- 2. Double Gloving — A Standard Practice in Surgery**
Review the evidence and recommendations for double gloving to promote safety and reduce healthcare worker and patient risk
- 3. Hand Hygiene: Skin and Hand Care in the Healthcare Setting**
Healthcare-Associated Infections (HAIs) lead to significant mortality and cost. Learn best practice for hand hygiene and ways to maintain healthy skin while reducing infection risk.
- 4. Understanding Latex Allergy in the Healthcare Setting**
Understand the incidence, causes, symptoms and treatment of Type I latex allergy and identify strategies to reduce the associated risk.
