WASTE WATER TREATMENT / DRINKING WATER PLANT

SINGLE-USE PROTECTION

MICROFLEX® 93-260 [More Info](#)

Chemical-resistant disposable gloves that offer tough chemical protection and unparalleled comfort

- Three layer design for superior protection against harsh chemicals
- The thinnest chemical resistant disposable glove for enhanced tactility and dexterity
- Extra soft material and ergonomic design for outstanding fit, feel and flexibility
- Lower acceptable pinhole rate (0.65 AQL) for reliable protection against hazardous substances
- Tested against both fentanyl and gastric acid (vomit) to simulate hazardous, real world overdose situations

WASTE WATER TREATMENT / MASS TRANSIT

CUT PROTECTION

HyFlex® 11-939 [More Info](#)

Ultralight, fully coated cut-resistant and oil-repellent work gloves

- **RIPEL™ Liquid Repellence:** Defense from oil and chemicals
- **Reinforced thumb crotch:** 12x greater durability around the thumb*
- **Ultralight 18-gauge design:** All-day comfort and dexterity

*compared to competitor gloves lacking this feature

CHEMICAL PROTECTION

AlphaTec® Solvex® 37-185 [More Info](#)

High-comfort, chemical resistant glove for a wide range of applications, covering to the top of the elbow

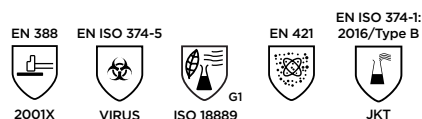

- No inner cotton flocking, reducing risk of lint contamination and making it ideal for production areas sensitive to the introduction of external impurities
- Sandpatch finish giving the glove a smooth surface that decreases indirect costs, thanks to fewer rejects of fragile parts
- Fully reusable, with an unequaled abrasion resistance
- Provides superb comfort for the wearer
- Complies with FDA food handling requirements (21 CFR 177.2600)

AlphaTec® 37-310 [More Info](#)

These food-processing gloves offer all-day comfort at an exceptional value

- 100% latex-free
- Unflocked: to prevent the risk of food contamination
- Extra-thin 8 mil/0.2mm palm for PPE gloves with advanced dexterity

AlphaTec® 37-300 [More Info](#)

All day comfort at exceptional value

- 8mil / 0.2mm thickness allows dexterity and tactility without a loss of durability
- NBR offering protection against light acids, greases, oils and liquids
- Engineered fit to allow optimum balance of fit and flexibility both on its own or as an over glove
- The latex-free formulation of these gloves presents no risk of Type 1 allergies
- Long cuff extends to the forearm

GENERAL PROTECTION

HyFlex® 11-840 [More Info](#)

Extreme durability for extended wear in abrasive applications with up to 20% higher abrasion protection

- **Improved abrasion protection:** provides 20% more abrasion for longer lasting handling in abrasive conditions
- **Enhanced grip:** up to 2 times more grip in dry environments for secure handling and a safer day at work
- **Thin FORTIX™ nitrile foam coating:** the new and improved coating is softer which increases flexibility and comfort. The 1.25 mm nitrile coating provides up to 2 times more grip and offers 20% longer wear time.
- **Ergonomic fit:** Optimized knitting at the base of the pinky finger across the finger tips and through the palm matches natural hand contours
- **Ultimate comfort:** Ansell ZONZ™ Comfort Fit Technology optimizes the knitting in selecting zones of the liner improving support, breathability and range of movement
- **Silicone-free:** no transfer of silicone contaminants to metal parts prior to painting
- **Clean and Skin Friendly:** benefits from proprietary washing process that efficiently extracts impurities to deliver a cleaner, more comfortable glove
- Oeko-Tex® and Dermatest certified
- DMF free

HyFlex® 11-925 [More Info](#)

Ultralight abrasion-resistant gloves with special oil-repellent capabilities

- **RIPEL™ Liquid Repellence:** PPE gloves that protect in oily conditions
- **Three-quarter dipping:** For defensive coating with ample grip
- **Ultralight fine-gauge liner:** Highly flexible, dexterous hand protection

CUT PROTECTION

HyFlex® 11-541 [More Info](#)

Lightweight cut-resistant industrial gloves with exceptional grip

- **ANSELL GRIP™:** For strong, confident grip
- **INTERCEPT™ Cut Resistance:** EN and ANSI level 4 hand protection
- **ZONZ™ Comfort Fit:** For PPE gloves boasting comfort and dexterity

ActivArm® 80-813 [More Info](#)

These work gloves offer superior flame-resistant protection from extreme hazards

- Materials are inherently flame resistant, providing protection even after multiple launderings; Meets FR Testing CGSB 155.20-2000
- Superior arc-flash protection: "Arc Rating (ATPV) = 9.4 cal/cm2 Arc Category Level 2 per ASTM F2675-13"
- EN ISO cut level C protection provides the worker the ability to handle sharp parts and materials with confidence
- Outstanding ergonomic design, superior comfort, dexterity and flexibility based on patented technology
- Thin 13g knitted liner with DuPont™ Kevlar® increases productivity and safety performance
- Proprietary soft foam coating ensures a secure grip in wet, oily and dry environments to reduce slippage and tension in the hands

- Proprietary soft foam coating ensures a secure grip in wet, oily and dry environments to reduce slippage and tension in the hands

COLD & HEAT PROTECTION

ActivArm[®] 52-590 [More Info](#)

Nitrile impregnated coating on a jersey liner

- General purpose glove in medium to heavy duty applications. More flexible, more comfortable, far more hard-wearing
- Superior resistance to abrasion and good protection against minor injuries, cuts and puncture
- Close, comfortable fit while safely cushioning the hand. Absorbs perspiration, keeping the hand dry and comfortable for longer
- Excellent dry grip. Makes handling quicker and easier

ActivArm[®] 97-681 [More Info](#)

Cold and liquid protection with dexterity and comfort

- PVC coating provides grip and flexibility, even in the coldest temperatures
- RIPEL[™] Technology keeps liquids out helping your hands stay dry and warm longer
- Two-layer design gives the user:
 - PVC coated flexible nylon exterior to protect against liquid and mechanical risks, including cut
 - Soft and insulative acrylic interior provides comfort and warmth
- Industry leading combination of warmth and dexterity in a liquidproof glove
- Thin enough to handle small objects but protective enough for harsh environments

STREETS CREWS

COLD & HEAT PROTECTION

ActivArm® 97-011

[More Info](#) 

Protecting workers from the elements

- 2-ply acrylic brushed liner keeps hands warm in extreme cold, as well as cut and abrasion protection
- Tested to perform at -4°F/-20°C
- ¾ double-dipped nitrile coating has a sandy finish for excellent wet/oily and dry materials handling, preventing injury from slippage
- Superior all-day comfort reduces hand fatigue
- More breathable than leather, keeping hands dry and comfortable
- Increases worker safety when high visibility is a must, including low-light conditions

ActivArm® 97-631

[More Info](#) 

Cold resistant glove

- PVC coating provides excellent grip and flexibility, even in the coldest temperatures
- Two-layer design gives the user:
 - Flexible nylon exterior protects against mechanical risks, including cut, and contours to the hand permitting maximum dexterity
 - Soft and insulative acrylic interior provides comfort and warmth
- Giving the wearer a unique combination of warmth, dexterity, and flexibility that lets you feel everything but the cold
- Cold resistant glove that lets you tackle everything from food processing to outdoor construction

LAW ENFORCEMENT

SINGLE-USE PROTECTION

MICROFLEX® LIFESTAR EC™ LSE-104

[More Info](#)

EMS gloves offering reliable barrier protection against opioids and hazardous substances

- Tested against both fentanyl and gastric acid (vomit) to simulate hazardous, real world overdose situations
- Dual layer, dual color design for two layers of protection
- Advanced barrier protection (AQL 0.65)
- Non-stick and non-foaming properties for reduced interference when working

MICROFLEX® MidKnight™ MK-296

[More Info](#)

Black nitrile gloves that mask stains

- The distinctive color of these black nitrile gloves hides stains and provides contrast for improved visibility
- These disposable grip gloves feature a fully textured design for a confident grip
- Non-foaming for easy handling of objects in wet environments
- Tested against both fentanyl and gastric acid (vomit) to simulate hazardous, real world overdose situations

TRAFFIC / TACTICAL

RINGERS® R307

[More Info](#)

High-viz glove with reflective palm material for traffic control

- Quick pull-on design
- Bright, highly visible color
- High performance reflective strips on full palm
- Great flexibility and dexterity

RINGERS® R507

[More Info](#)

Tactical glove with Supercuff technology and lightweight materials for maximum flexibility

- Contoured fingertip design for enhanced tactile feel
- Lightweight materials for maximum flexibility
- High performance spandex for ergonomic contoured fit
- Hook & loop standard cuff for adjustable custom fit
- Patented Supercuff technology for maximum wrist flexibility

LAW ENFORCEMENT

CHEMICAL PROTECTION

AlphaTec® 2000 STANDARD Bound - Model 111 [More Info](#)

Superior breathable microporous laminate technology, Type 5/6 protection

- Proven protective barrier to low concentration liquid chemicals, liquid & particulate biological hazards
- Comfortable to wear featuring moisture vapor permeable fabric ("breathable") to help reduce the risk of heat stress
- Optimized body fit, improving wearer comfort and safety
- Anti-static, tested according to EN 1149-5
- Low linting to help reduce the risk of cross contamination in critical areas
- Silicone-free, critical in spray painting applications

AlphaTec® 2000 Ts PLUS Stitched & Taped - Model 111 [More Info](#)

Superior breathable microporous laminate technology, Type 4/5/6 protection

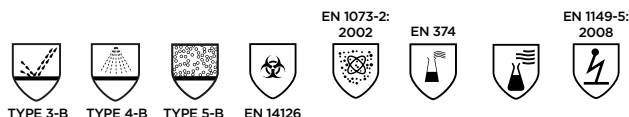

- Proven protective barrier to low concentration liquid chemicals, liquid & particulate biological hazards
- Comfortable to wear featuring moisture vapor permeable fabric ("breathable") to help reduce the risk of heat stress
- Optimized body fit, improving wearer comfort and safety
- Anti-static, tested according to EN 1149-5
- Ultra Low Linting, reduced risk of contamination in critical areas
- Silicone-free, critical in spray painting applications
- Tunnelled elasticated hood, wrists and ankles - Helps to minimize the risk of linting and cross contamination

AlphaTec® 2300 PLUS Stitched & Taped - Model 132 [More Info](#)

Medium duty chemical barrier, Type 3/4/5 protection

- A good protective barrier to numerous inorganic liquid chemicals including acids and bases
- Type 3 coverall, lightweight, yet relatively strong and durable
- Designed to protect, typical coverall features include respirator fit hood and a zip flap with self-adhesive tape closure
- Highly visible bright yellow for improved worker safety
- Anti-static, tested according to EN 1149-5

MAINTENANCE DEPOT - (Fleet Services)

WELDING PROTECTION

ActivArm® 43-216 [More Info](#)

These industrial heat-resistant gloves offer high levels of durability, control and protection from heat, flame, sparks and puncture

- Improved 3-dimensional thumb design for fine dexterity and control
- Premium split cowhide leather and welted seams with Kevlar®
- Cotton liner for enhanced protection
- Long cuff for enhanced protection
- Do not use in heavy-duty cut applications. The glove is not liquidproof, hence is not to be used with chemicals
- Keep away from sources of ozone or ignition. Keep out of direct sunlight. Store in a cool and dry place

ActivArm® 43-217 [More Info](#)

Our best welding glove provides users with high tactility and dexterity while keeping their hands protected and safe

- TIG welding glove that provides EN12477 Type-B protection for precise welding and thermal tasks
- Suitable for TIG welding, as well as grinding, brazing, metal fabrication and maintenance
- Provides protection from heat, flames, sparks and weld spatter
- 3-dimensional thumb design greatly increases fine dexterity for precise welding control
- Premium full grain goatskin and welted seams with para-aramid thread ensure durability in use
- Long split cowhide cuff extends protection to the forearms

GENERAL & IMPACT PROTECTION

ActivArm® 97-120 [More Info](#)

Best in class oil and impact protection

- Feature Icons - Integrated glove feature icons allow for quick identification
- High Visibility - Bright orange - colored exterior and reflective logo
- Oil Impermeable Barrier - Repellency from drilling fluids and oils to keep hands clean and improve comfort
- Enhanced Oil Grip - Mitigates hand fatigue and injury by addressing the #1 worker frustration for efficiency and safety
- Impact Protection - Impact bumpers protect entire back of hand from medium-level impact injury to prevent loss time

MASS TRANSIT

GENERAL PROTECTION

HyFlex® 11-840 [More Info](#)

Extreme durability for extended wear in abrasive applications with up to 20% higher abrasion protection

- **Improved abrasion protection:** provides 20% more abrasion for longer lasting handling in abrasive conditions
- **Enhanced grip:** up to 2 times more grip in dry environments for secure handling and a safer day at work
- **Thin FORTIX™ nitrile foam coating:** the new and improved coating is softer which increases flexibility and comfort. The 1.25 mm nitrile coating provides up to 2 times more grip and offers 20% longer wear time.
- **Ergonomic fit:** Optimized knitting at the base of the pinky finger across the finger tips and through the palm matches natural hand contours
- **Ultimate comfort:** Ansell ZONZ™ Comfort Fit Technology optimizes the knitting in selecting zones of the liner improving support, breathability and range of movement
- **Silicone-free:** no transfer of silicone contaminants to metal parts prior to painting
- **Clean and Skin Friendly:** benefits from proprietary washing process that efficiently extracts impurities to deliver a cleaner, more comfortable glove
- Oeko-Tex® and Dermatest certified
- DMF free

WARNING: Products that provide "cut resistance" and "cut protection" or "puncture resistance" and "puncture protection" do not completely prevent or eliminate the potential for cuts or punctures, and are not intended or tested to provide protection against powered blades, serrated or other sharp or rotating equipment. Products offering "viral protection" do not completely prevent the transmission of disease. Products that provide chemical resistance" or "chemical protection" do not completely prevent or eliminate the potential for injury due to chemical exposure. Products that provide "resistance" to oil or grease or which are "oil repellant" do not completely prevent or eliminate the potential for oil or liquid penetration or absorption. Products that provide "snag resistance" or "snag protection" do not completely prevent or eliminate the potential for snags or friction-related injuries. Products that provide protection against sparks or flames are not "fireproof" and do not completely prevent or eliminate the potential for burns or associated injuries. Products that provide protection or resistance against heat or cold are not intended for use in extreme temperatures – use only as specified. Products containing natural rubber latex may cause allergic reactions in some individuals. Products that provide "impact, crush and pinch protection" do not completely eliminate the potential for impact or crush related injuries. Users are encouraged to always use caution and care when handling sharp or abrasive materials, chemicals, or other hazardous or dangerous substances. Any information or data provided is based upon Ansell's current knowledge and understanding of the subject matter, and is offered solely as a possible suggestion for use in making your own decisions or product choices. Product users should conduct all appropriate testing or other evaluations to determine the suitability of Ansell products for a particular purpose or use within a particular environment. It is the responsibility of a product user to assess the level of risk and to determine the protective equipment required or appropriate for the user's particular purpose. Ansell may revise this information as new information, knowledge or experience becomes available. ANSELL DISCLAIMS ALL WARRANTIES OTHER THAN AS EXPRESSLY PROVIDED.
