

Ansell and Chemwatch Collaborate to Improve Chemical Safety

Global safety leaders team up to provide greater awareness and enhanced protection solutions to keep workers safe in hazardous chemical environments.

15 September 2022 - [Ansell](#), expert in chemical personal protective equipment (PPE) manufacturing and [Chemwatch](#), professional in chemicals management and safety data sheet (SDS) authoring, are announcing their global partnership today.

Ansell and Chemwatch will work to raise awareness on the risk and consequences of exposure to hazardous chemicals. The partnership focuses on leveraging and sharing mutual chemical safety advice.

The extensive Chemwatch SDS database is now available to support the AnsellGUARDIAN® Chemical Technical Expert team, by further enriching their World Class capabilities in recommending appropriate PPE for customers specific hazards and related safe needs. The wealth of chemical information accessible through Chemwatch SDS, including on complex substances mixtures will ensure the best possible advice for AnsellGUARDIAN® customers around the world.

In turn, Chemwatch, who is already providing SDS creation services to their customers and containing over 120 million SDS in their database, will now offer enhanced chemical PPE recommendations powered by AnsellGUARDIAN® Chemical. SDSs provided by Chemwatch will feature recommendations on appropriate Ansell PPE - with specific PPE product solutions included in *Section 8: Exposure controls and personal protection* for Chemwatch-authored SDSs

About Ansell

[Ansell](#) is a world leader in providing superior health and safety protection solutions that enhance human well-being. The world's need for better protection never stops, so Ansell is constantly researching, developing and investing to manufacture and distribute cutting edge product innovation and technology, marketed under well-known brands that customers trust.
