ANSELL RECEIVES ECOVADIS SILVER MEDAL

May 11, 2023, Brussels, Belgium – For the second year in a row, Ansell Ltd receives a Silver Medal (2023) from EcoVadis, an internationally recognised sustainability rating company.

We have improved our industry ranking to top 3% of companies rated by EcoVadis in our industry* (up from top 6% in 2022), and our performance places us in the top 10% of companies assessed by EcoVadis, with our overall sustainability performance recognised as “Advanced”.

EcoVadis, an internationally recognised sustainability rating company, assessed our 2022 fiscal year performance against 21 broadly recognised CSR criteria across 4 Themes: Environmental, Labour & Human Rights, Ethics, and Sustainable Procurement. EcoVadis assessments follow verifiable international CSR standards, such as the Global Compact Principles, the conventions of the International Labour Organization, Global Reporting Initiative Standards, and ISO 26000.

During fiscal year 2022, Ansell embarked upon a broad range of exciting new sustainability priorities across People, Planet and Product. **Read more in our [2022 Sustainability Report](#).**

“I am pleased with the progress shown by our improved EcoVadis scoring and industry ranking. This is attributable to the hard work of many teams across Ansell. As we continue to benchmark ourselves against leading practices and standards, Ansell remains committed to our core ambition which is to ensure through our products and our operations, we protect both people and the planet.” – Neil Salmon

*EcoVadis classified Ansell in “other manufacturing n.e.c. (nowhere else classified)” industry

About EcoVadis

EcoVadis assessments follow verifiable international CSR standards, such as the Global Compact Principles, the conventions of the International Labour Organization, Global Reporting Initiative Standards, and ISO 26000. Their analyses focus on 21 broadly recognised CSR criteria, from environmental impact management in operations and products to working conditions and sustainable procurement. The objective of the EcoVadis rating process is to assess the quality of a company's sustainability management system through evidence as well as controversy screening. Each company is individually assessed based on strict validation methodology. Questionnaires assigned to each company are devised in accordance with certain contextual elements, including size, location, and the industry in which they operate. The analysis conducted and the final score attributed is weighted accordingly.
