

Ansell

ZERO IN ON ZERO WASTE

 **RightCycle**[™]
SCIENTIFIC

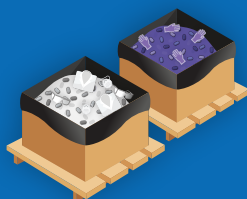

A responsible, affordable and transparent way to recycle used Ansell branded PPE!

RightCycle[™] by Ansell is the first-of-its-kind landfill diversion program for non-hazardous PPE. It has helped hundreds of customers divert 7 million pounds of used Ansell branded PPE since the program's inception in 2011¹.

2. Contact your local Ansell sales representative or RightCycle@Ansell.com for list of eligible products.

3. Flex-film packaging must be from Ansell products.

Ansell

ZERO IN ON ZERO WASTE

Responsible, Affordable and Transparent

The RightCycle recycling process is fully transparent. You can track your shipments on line and in almost real time through the WasteBits® program. You know exactly where the waste streams are and when they are recycled. Reports of your landfill diversion results can be quickly generated at any time and shared with your team. Most importantly, you can audit our business partners virtually or in-person.

We support you to ensure success:

Activate with ease – we walk you through enrollment, every step of the way!

Generate excitement with an employee kick-off event that we can help organize.

It's easy to implement:

Enroll in Wastebits® to generate a waste profile for each shipment and receive landfill diversion metrics.

Arrange for shipment with your own preferred vendor or through *freightcenter.com* that offers discounted rates for RightCycle participants.

Celebrate your accomplishments during Earth Month through PR and social media materials.

Ansell's Commitment to Sustainability

Everything we do begins - and ends - with safety, and to better protect people we must also protect the world we live in. Ansell's 2045 Sustainability Action Plan includes the following targets:

- Achieve net zero across the entire value chain
- Source 100% renewable electricity in all plants
- Certify all manufacturing plants to ISO 50001 Energy Management Systems
- Reduce water withdrawals by 35%
- Achieve Zero Waste to Landfill across all manufacturing plants

Progress against these targets are highlighted in our 2025 annual Sustainability Report at www.ansell.com/us/en/sustainability.
