### FOR THE PATIENT

**Safe for oral examination.** MICRO-TOUCH DENTA-GLOVE products are tested for bio-compatibility by using ISO oral mucosa irritation and chemical residue testing methods to ensure that the gloves you use are the safest for patient contact.

### FOR YOU

**Industry-leading technologies.** Enhanced comfort, fit, and grip; our MICRO-TOUCH DENTA-GLOVE products are optimized for the challenging dental environment. From our ERGOFORM® ergonomic design technology reduces muscle effort to inner coatings that promote the health of your skin, our products help you perform your procedures better and more efficiently. Have a longer, happier working day!

### FOR YOUR PRACTICE

**High-quality.** Our products are manufactured to the highest quality standards to minimize defects and are neatly packed to reduce waste. Our on-going monitoring and continuous improvement processes ensure the best product quality. In addition, our free online education courses developed by our knowledgeable clinical team allow you and your office to stay up to date on infection control topics.
