

87-108

Heavyweight chemical protection natural rubber glove

Previously known as: EMPERORTM A009

Long-cuff natural rubber gloves, offering heavy-duty chemical and mechanical protection

- Heightened protection: With a tear-resistant 1.5mm/59 mil-thick external surface, AlphaTec[®] 87-108 heavy-duty gloves grant wearers heightened chemical protection, particularly against water-based hazards
- Enhanced features: These protective gloves' long beaded cuff enhances wearer safety and facilitates donning, with a maximum glove length of 610mm/23" ensuring additional forearm and wrist protection
- Improved cleanliness: Chlorination treatment makes these gloves harder and cleanses their surface
- Increased flexibility: Their natural latex rubber formulation means these industrial gloves maintain flexibility and elasticity, despite their thickness
- Assured quality: In addition, they achieve an AQL of 0.65

Industries

- Agriculture
