Heat

Heavy Duty

DuPont™ Kevlar® gloves providing superior mechanical protection and cut resistance

- **Advanced protection:** Made of 100% DuPont™ Kevlar® material, HyFlex® 70-215 light-duty industrial gloves offer a very high cut resistance to weight ratio and protect from sharp edges of metals, ceramics, glass and other materials
- **Augmented durability:** These protective gloves' Neptune® coating repels liquids, avoiding damage to the Kevlar® strands and extending their wear life
- **Added protection:** HyFlex® 70-215 work gloves' reinforced thumb welt increases their durability and resistance to abrasion, reducing the risk of workplace injuries
- **Enhanced features:** These hand protection gloves use the Terry loop technique to enhance heat insulation, while their thicker wall offers high shock absorption without losing dexterity
- **Improved practicality:** These safety gloves feature a reversible design, allowing them to be worn on either hand, and are ambidextrous, fully washable and can be reused many times, reducing replacement costs

Industries

- Automotive
- Machinery and Equipment

Applications

- Metalworking & assembly operations
- Chassis assembly, body trimming
- Seizing structural and body parts
- Inspection (picking, checking and marking)
- Touching up

HyFlex®

ADVANCED MECHANICAL PROTECTION

70-215

Medium duty cut resistant gloves

Previously known as: Neptune®Kevlar®70-215

Key Features

- **100% DuPont™ Kevlar® material:** High cut resistance assured
- **Neptune® coating:** For hand protection gloves with liquid repellence
- **Reinforced thumb welt:** Increased abrasion resistance and durability
