

Comfortable protection from hazardous particulates in critical environments..

DESIGN

SMS fabrics are a particularly good barrier against particulates such as asbestos, brick dust and cement dust, and will provide protection from light aerosol mists; as found in some paint spray environments.

Anti-static suit, used for the stripping, clear up or handling of asbestos, general maintenance, construction and contract cleaning.

STITCHED SEAMS

Combining strength with particle barrier

SUIT FEATURES

- 3-piece hood
- Elasticated hood, wrists, waist and ankles
- 2-way front zipper with resealable storm flap
- Finger loops
- Anti-static treatment

COLOURS

White, Light Blue, Navy

SIZES

S-5XL

Industries

- Machinery and Equipment
- Life Sciences
- Metal fabrication
- Construction
- Chemical

Applications

- Unpacking of bulk goods
- Loading and unloading of process equipment
- Body Surface checking, marking and touching up
- Assembly & inspection of components
- Painting or cleaning tools or robots
- Production line support & maintenance

KEY FEATURES & BENEFITS

- Proven protection, filters 99.9% of particles >3 microns*
- Air and water vapour permeable (breathable) fabric helps reduce the risk of heat stress
- Optimised body fit, improving wearer comfort and safety
- Silicone free, critical in spray painting applications
- Anti-static, tested according to EN 1149-5

* KAKEN Particle penetration test
