

Durable and lightweight, medium-duty protective barrier gown with chemical resistance.

- ◊ **Specialized protection:** Delivering light chemical protection*, the AlphaTec™ 2300 STANDARD Bound - Model 237's combination of a polyethylene barrier coating and bi-component nonwoven inner layer notably guards against inorganic liquid chemicals, including acids and bases
- ◊ **Increased practicality:** Practicality and usability are also enhanced by this robust lightweight design
- ◊ **Added security:** Bright yellow coloring heightens its visibility, avoiding accidents and improving workplace safety
- ◊ **Enhanced features:** In addition, it possesses a zip flap designed with a self-adhesive tape closure

Industries

- Life Sciences
- Machinery and Equipment
- Agriculture
- Food Processing

Applications

- Equipment maintenance and repair
- Equipment repair & maintenance
- Handling structural and body components
- Assembly & inspection of components
- Fibre Glass/Resin Applications/Ceramic Fibres

KEY FEATURES & BENEFITS

- **Protective barrier:** Protects from inorganic liquid chemicals
- **Lightweight, robust design:** For added durability and ease of use
- **Bright yellow color:** Extra visibility, to prevent workplace injuries
