Medium Duty

Safety gloves combining cut resistance and oil repellence with superb grip

- Optimized grip: HyFlex[®] 11-927 protective gloves leverage patented Ansell GRIP[™] Technology to provide a firm hold in wet and oily conditions, resulting increased safety and efficiency
- Advanced ergonomics and improved aesthetics: A new former shape ensures a superior fit, lending these dirt-masking, black hand protection gloves to diverse medium-duty applications
- Specialized protection: In addition, these mechanical protection gloves feature ⋈ dip geometry coating for added personal protection from oil exposure and knuckle abrasion
- Reinforced defenses and elevated comfort: These industrial gloves also have an HPPE-based liner, combining high ANSI Level 4/EN 4 abrasion resistance and ANSI Level 2/EN 3 cut resistance, with a cool feeling on the hand
- Varied sizing options: HyFlex® 11-927 comes in sizes 6 to 11 to cater for all workers

Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

Applications

- Press shop operations
- Handling parts with sharp, rough edges
- Handling structural and body components
- Chassis assembly, body trimming
- Production line support & maintenance
- Inspection (picking, checking and marking)
- Adjusting systems and screwing
- Mounting and dismantling
- Handling materials with sharp or rough edges
- Assembly & inspection of components
- Equipment repair & maintenance

11-927

Medium duty oil-repellent, oil grip, cut resistant glove

Key Features

- Ansell GRIP™ Technology: Strong grip in wet and oily environments
- New former design: Greater agility and dexterity for medium-duty tasks
- 🛮 dip geometry coating: Minimized oil exposure and knuckle abrasion
