Medium Duty

Comfortable flame-resistant gloves, offering advanced arc flash and cut protection

- **Specialized protection:** ActivArmr™ 80-813 heat-resistant gloves are tested against CGSB 155.20-2000 FR standards, boasting an industry-leading Arc Flash Hazard/Risk Category 1 design that guards against electrical arc flash hazards
- **Advanced defenses:** Featuring an aramid engineered composite yarn and a thin 13g knitted liner, these gloves offer ANSI/ISEA 105-2024 CUT A4 and EN ISO C protection, allowing for safe handling of sharp components.
- **Augmented dexterity:** ActivArmr™ 80-813 industrial gloves' patented technology and ergonomic design ensure superb flexibility and hand protection
- **Enhanced grip:** Thanks to their proprietary soft foam coating, they make for better grip gloves, reducing slippage and tension in the hands and guaranteeing secure grip performance in wet, oily and dry environments

Industries

- Machinery and Equipment
- Mining
- Energy
- Automotive
- Automotive Aftermarket
- Infrastructure Maintenance

Applications

- Job tasks with potential for arc-flash or flash-flame exposure
- De-energized electrical equipment panels
- Electrical equipment operation and switching_NFPA 70E_
- Facility and machinery maintenance
- Handling sharp metal or objects

Previously known as: PowerFlex®80-813

Key Features

- ♦ **Flame-resistant materials:** Satisfies CGSB 155.20-2000 FR standards
- ♦ **Superior arc-flash protection:** Arc Category level 1 per ASTM F2675-22
- ♦ **Cut-resistant aramid yarn:** Advanced cut protection
