AlphaTec™

38-002

Improved water-based butyl glove delivering enhanced comfort, performance and grip

Improved water-based butyl glove delivering enhanced comfort, performance and grip

- **Advanced chemical protection:** Water-based butyl formulation delivers protection against aggressive industrial chemicals
- **Improved ergonomics:** Flexible glove construction enhances comfort for extended wear and repetitive tasks
- **Balanced flexibility and durability:** 0.5 mm construction provides optimized dexterity, tactility and durability
- **Strengthened grip:** Raised diamond finish enhances grip performance for safer handling applications
- **Reliable electrostatic protection:** EN 16350-compliant glove suitable for electrostatic-sensitive environments

Industries

- Automotive
- Life Sciences
- Chemical

Applications

- Filling, blending and charging of raw materials
- Blending, compounding solids and/or liquids
- Transferring liquids and solids
- Transferring liquids and solids between vessels and tanks and process equipment
- Unexpected leakages spills or other releases
- Supervision of running operation
- Opening and draining pumps valves or lines
- Handling incoming goods
- Equipment repair & maintenance
- Charging and blending raw materials

AlphaTec™
