

58-001 ESD

Ergonomic, Comfortable Chemical protection

Protective gloves designed for static hazard and high explosive risk environments

- Specialized protection: AlphaTec® 58-001 ESD gloves provide advanced chemical protection in mitigating static buildup across surface areas, specifically when working with chemicals and liquids in environments with static hazards or high explosive risks
- Advanced defenses: These nitrile gloves grant a more superior snag, puncture, and abrasion protection compared to rubber and neoprene gloves, ensuring excellent personal protection
- Enhanced grip: AlphaTec® 58-001 ESD gloves feature a reverse lozenge palm finish for improved grip when handling both wet and dry surfaces
- Advanced features: In addition, these chemical protective gloves offer a foldable cuff gutter to prevent dripping on the forearm, and an antistatic flocking layer, which allows for ease of donning and doffing as well as moisture management

- Agriculture
- Automotive
- Food Processing
- Life Sciences
- Machinery and Equipment
- Metal fabrication
- Energy
- Recycling and Waste Disposal
- Chemical

Applications

- Assembly & inspection of components
- Oil, fluids and filter change
- Plating, coating, sealing, painting
- Handling incoming goods
- Transferring liquids and solids between vessels and tanks and process equipment
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Cleaning furnaces, distillation pumps, valves or lines and crackers BTX process

58-001 ESD

Ergonomic, Comfortable Chemical protection

Key Features

- Unique nitrile and carbon formulation: Consistent static dissipation
- High performance nitrile compound: Superior mechanical protection
- Reverse lozenge finish: For improved dry and wet grip
