

Chemical-resistant gloves offering superior grip and advanced dexterity

- **Specialized protection:** AlphaTec® 58-270 safety gloves possess a thin nitrile shell, which enables EN 374 Type A chemical protection with breathable comfort
- **Reinforced grip:** ANSELL GRIP™ coating ensures class-leading grip, for more secure handling
- **Enhanced features:** AlphaTec® 58-270 industrial gloves' special safety cuffs make them easy to don and remove, facilitating daily use
- **Augmented dexterity:** Their seamless 15-gauge design helps reduce strain and augment dexterity
- **Elevated comfort:** In addition, their nylon liner retains less heat, reducing perspiration and ensuring greater comfort
- **Improved durability:** These AlphaTec® gloves are hard-wearing, with ANSI level 4 abrasion resistance

Industries

- Automotive
- Automotive Aftermarket
- Machinery and Equipment
- Metal fabrication
- Chemical
- Agriculture

Applications

- Body painting including surface inspection
- Applying sealers, touching up
- Press injection molding
- Equipment repair & maintenance
- Assembling and mounting components
- Painting or cleaning tools or robots
- Final assembly
- Metalwork, glass processing
- Assembly & inspection of components
- Warehousing of raw materials
- Testing

Key Features

- **Thin, durable nitrile shell:** EN 374 Type A chemical protection
- **ANSELL GRIP™ coating:** For PPE gloves that offer superior grip
- **Generous safety cuff:** Safety gloves that are easy to put on and remove
