

Heavy-duty chemical-resistant gloves, offering both mechanical and chemical protection

- **Advanced protection:** Made from 1.2 mm/47 mil thick natural rubber latex, AlphaTec® 87-104 chemical protection gloves ensure high resistance to water-based chemicals, as well as protection against mechanical hazards
- **Extended length:** Their 43cm/17" length makes for greater protective coverage than standard alternatives
- **Simplified use:** A beaded cuff makes these safety gloves particularly easy to don, simplifying everyday wear
- **Improved flexibility and durability:** Their unique formulation imparts high levels of flexibility and elasticity, preventing potential tears
- **Increased cleanliness:** These AlphaTec® gloves also undergo a chlorination treatment to cleanse and harden their outer surface

Industries

- Agriculture
- Construction
- Janitorial / Sanitation
- Maintenance
- Chemical

Applications

- Agriculture
- Chemical processing and preparation
- Janitorial use
- Construction
- Maintenance
- Heavy duty handling: where sensitivity is also required
- Maintenance of plant and heavy equipment

Previously known as: EMPERORTM A005

Key Features

- **1.2 mm/47 mil thick natural rubber:** Resistance to water-based chemicals
- **Beaded cuff:** For protective gloves that are easy to don and doff
- **Chlorinated surface:** Enhanced durability and cleanliness
