

# Cut, oil and abrasion-resistant gloves, granting good grip in dry conditions

- **Optimized durability:** EDGE<sup>®</sup> 48-701 industrial gloves' palm PU coating provides a high level of abrasion protection (ANSI 6), moderate cut resistance (ANSI A2), a good grip in dry environments, and better protection against oil than knitted or cut and sewn safety work gloves
- Increased protection: EDGE 48-701 protective gloves provide two levels of cut performance, affording robust, all-round hand protection in mediumweight applications
- Enhanced features: A more affordable alternative to medium-duty leather, thick cotton or aramid gloves, EDGE<sup>®</sup> 48-701 high-quality work gloves offer a seamless liner and knitted wrist, which deliver form-fitting comfort, good dexterity and added wrist protection

#### Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

#### **Applications**

- Aeronautics
- Assembly line
- Assembling metal parts and components
- Handling sharp or irregular metal pieces
- Molding
- Plastic injections

## **Key Features**

- Palm PU coating: High level of protection against abrasion and cuts
- Two levels of cut performance: For advanced hand protection gloves
- Seamless liner and knitted wrist: For flexible and secure work gloves

#### **Performance Standards & Regulatory Compliance**
