

Delivering high level of comfort and chemical protection

- **Advanced defenses:** AlphaTec™ 38-002 's new water based butyl formulation offers superior protection against highly aggressive chemicals, including aldehydes, ketones, solvent esters and concentrated mineral acids
- **Improved ergonomics:** Designed for comfort, AlphaTec™ 38-002 industrial gloves feature a unique butyl formulation to facilitate a soft feel, protecting hands while facilitating donning and doffing
- **Enhanced flexibility:** Ultra soft water based butyl formulation maximizes flexibility and dexterity
- **Strengthened grip:** Features a raised diamond pattern, enhancing grip and ensuring safer handling

Industries

- Automotive
- Life Sciences
- Chemical

Applications

- Equipment repair & maintenance
- Loading and unloading of process equipment
- Handling incoming goods
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Transferring liquids and solids between vessels and tanks and process equipment
- Unexpected leakages spills or other releases
- Supervision of running operation
- Charging and blending raw materials

Key Features

Delivers high levels of protection against Ketones and Solvents with unparalleled levels of comfort and flexibility

- ♦ Improved water based butyl delivering a high level of chemical protection
- ♦ Raised diamond grip pattern for enhanced grip in wet and dry
- ♦ Unprecedented levels of dexterity and tactility in a butyl glove
