

## Versatile nitrile work gloves, protecting hands from heat, cold and hazardous chemicals

- **Enhanced grip:** AlphaTec™ 58-201 chemical gloves feature Ansell Grip™ Technology, which ensures a stronger and more secure hold in wet and oily environments
- **Heightened defenses:** These cold and heat-resistant gloves are also designed to keep hands safe in temperatures ranging from -40°C (-40°F) to 250°C (482°F) while providing chemical protection
- **Elevated comfort:** Thanks to their acrylic liner, AlphaTec™ 58-201 green safety gloves deliver warmth in cold environments and delay heat transfer in contact heat applications
- **Added protection:** These nitrile-coated gloves ensure superior chemical resistance, making them ideal for diverse applications and environments

### Industries

- Automotive
- Food Processing
- Infrastructure Maintenance
- Construction
- Energy

### Applications

- All food processing applications that have food contact
- Cold Storage
- Seafood processing
- Chemical Handling
- Chemical processing and preparation
- Janitorial use
- Cleaning
- Maintenance

# AlphaTec™

## 58-201

Versatile Nitrile chemical protective glove with wide operating temperature range - up to 250°C and down to -40°C

### Key Features

- ◆ AnsellGrip Technology for enhanced grip in Wet and Oily conditions
- ◆ Designed to protect at temperatures from -40°C / F to 250°C / 482°F
- ◆ Acrylic liner keeps the hands warm in cold conditions and protected in contact heat applications
- ◆ Nitrile chemical barrier providing protection against a wide range of chemicals

### Vulcanization Chemical Accelerators

- ◆ Zinc dibutyl dithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

### Performance Standards
