

Flexible comfort with high-level cut and lightweight impact protection

Impact

Light Duty

The glove offers high-level cut protection (ANSI A7 / EN ISO F) and lasting durability, supported by flexible, lightweight design and microfoam nitrile coating.

- **Lightweight Impact Protection:** RINGERS™ R580 gloves deliver low-profile Level 1 TPR impact protection with up to 30% less weight than comparable gloves*, offering enhanced comfort, dexterity, and reduced hand fatigue.
- **High cut-resistance:** ANSI A7 / EN ISO F ratings deliver reliable safety without compromising comfort or dexterity.
- **Increased Grip & Durability:** Microfoam nitrile coating reduces replacements costs and delivers reliable grip for extended wear.
- **Reinforced for Longevity:** Thumb Crotch Reinforcement (TCR) strengthens high-wear zones to extend glove life and cut replacement costs.
- **Touchscreen Compatible:** Allows the wearer to work multiple touchscreen devices while keeping gloves on.

*Versus Ansell previous generation impact gloves

Industries

- Automotive
- Machinery and Equipment
- Chemical
- Oil & Gas
- Aerospace

Applications

- Light assembly tasks
- Loading and unloading material or worked parts
- Maintenance
- Handling materials with sharp or rough edges
- Grinding
- Inspection (picking, checking and marking)
- Assembly of small parts
- Assembly & inspection of components

Flexible comfort with high-level cut and lightweight impact protection

Key Features

- ♦ **Optimized Construction:** up to 30% lighter, and thinner than comparable gloves*
- ♦ **Lightweight Impact protection:** Level 1 TPR shields hands without restricting movement.
- ♦ **High cut-resistance:** ANSI A7 / EN ISO F deliver comfort and safety

*Versus Ansell previous generation impact gloves
