

## Flexible unsupported neoprene work gloves, guarding against varied chemicals and solvents

- **Heightened flexibility:** AlphaTec® 29-500 industrial gloves' mix of neoprene and rubber maintains its elasticity, even at lower temperatures
- **Elevated comfort:** As they are lined with pure cotton flocking, they provide better perspiration absorption, ensuring greater wearer comfort
- **Reduced hand fatigue:** Due to their blend of neoprene and natural rubber, they ensure lightweight hand protection that is less tiring with sustained wear
- **Enhanced defenses:** Their unique formulation makes these safety gloves resistant to a wide range of acids, caustics, alcohols and solvents
- **Assured antistatic capabilities:** AlphaTec® 29-500 chemical-resistant gloves also comply with EN1149 antistatic standards

### Industries

- Automotive
