Engineered not to compromise wearer protection in the event of a flash fire, when working with low pressure liquids and particulates.

- Multi hazard protection from light liquid chemical spray without compromising wearer safety in the event of a flash fire*
- Flame retardant treated Sontara/wood pulp/polyester fabric with good barrier protection
- Offers protection from particulates to Type 5 and low level liquid spray to Type 6
- Comfortable to wear featuring moisture vapour permeable fabric ("breathable") to help reduce the risk of heat stress
- Optimized body fit, improving wearer comfort and safety

* AlphaTec® FR should never be worn in isolation for flame retardant protection. Always wear over the top of garments which achieve EN ISO 14116 Index 2 or above.

**Industries**
- Oil and gas
- Chemical

**Applications**
- Contaminated Environments
- Chemical Handling
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Loading and unloading of process equipment
- Raw material sample collection
- Concentration mixing and palletisation
- Hazmat response
- Assembly and disassembly of large pipes
**FR - Model 111**

Innovative, breathable flame retardant technology, Type 5/6 protection

Previously known as: MICROGARD® FR - Model 111
