

GAMMEX® Latex Long Cuff

S U R G I C A L G L O V E S

Powder-free latex surgical gloves with extended cuffs, designed for deep cavity procedures

- **Enhanced arm protection:** Ideal for deep cavity procedures, GAMMEX® Latex Long Cuff sterile gloves are over 33% longer** than Ansell's standard surgical alternatives offering personal protection beyond the wearer's elbow
- **Excellent wet grip:** Their micro-textured finish, with an optimized surface treatment, offer wearers superb wet grip to securely hold newborn babies; and confidently handle small instruments
- **Ergonomic comfort and fit:** These powder-free latex surgical gloves are anatomically shaped, providing excellent comfort and fit, to provide exceptional performance during long procedures
- **Safe handling of chemo drugs***:** Tested in accordance with ASTM D6978 requirements
- **Long shelf life:** These sterile GAMMEX® surgical gloves benefit from a five-year shelf life

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

**Based on comparing this glove's 400mm length to Ansell's standard 300mm surgical glove

***Contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

Recommended For

- Extra protection over the wrist and arm
- Limiting the risk of body fluid splashes towards healthcare professionals
- Preventing the risk of cross-contamination
- Use as an outer glove when double gloving

GAMMEX® Innovation that Protects

Driven by innovation, GAMMEX® surgical gloves are engineered to respond to the evolving user needs of the surgical community. Featuring unique formulations and cutting-edge technologies, ergonomic comfort and superior protection, healthcare workers around the world entrust their hands to ours.

GAMMEX[®] Latex Long Cuff

SURGICAL GLOVES
