

GAMMEX® Powder-Free with AMT™

SURGICAL GLOVES

Latex, powder-free surgical glove with a proprietary antimicrobial inner coating for active barrier protection

KEY FEATURES AND BENEFITS:

- Proprietary AMT Technology™ enables the application of chlorhexidine gluconate (CHG) to the inner coating, suppressing the users' regrowth of bacteria while providing rapid anti-viral and antibacterial action for added protection even when a glove breach occurs
- Kills at least 99% of Hep-C virus and HIV-1 strain Mn as early as 1 minute¹
- Kills between 99 and 99.999% of eight common gram-positive, gram-negative and drug-resistant bacteria as early as 1 minute¹
- This antimicrobial glove contains moisturizers, emollients and antiirritant components ensuring a skin friendly glove while providing enhanced protection

NOTE: Not proven to protect against blood-borne infections where the skin is broken, cut or punctured.

1. Data on file. HIV-1 strain Mn is a well-studied, virulent strain of HIV-1. CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

Recommended For

- Damp donning
- Extra comfort during long, sustained procedures
- Use as an outer glove when double gloving

FEATURED TECHNOLOGIES

GAMMEX[®] Innovation that Protects

Driven by innovation, GAMMEX[®] surgical gloves are engineered to respond to the evolving user needs of the surgical community. Featuring unique formulations and cutting-edge technologies, ergonomic comfort and superior protection, healthcare workers around the world entrust their hands to ours.

GAMMEX[®] Powder-Free with AMT[™]

SURGICAL GLOVES

Material	Natural Rubber Latex								
Powder Content	Powder-Free								
Color	Natural								
Thickness	Standard								
Cuff Style	Straight with SUREFIT™ Technology
