MICRO-TOUCH® DENTA-GLOVE® Green Neoprene

Standard Thin

Neoprene, powder-free dental exam gloves with ergonomic design, for excellent flexibility and grip

- **Reduced muscle strain:** Featuring proprietary ERGOFORM™ Ergonomic Design Technology, this non-sterile, neoprene glove helps reduce muscle effort that can cause stress on joints, ligaments and tendons
- **Comfortable fit:** Unique formulation for extra tactile sensitivity, flexibility, comfort and grip
- **High durability:** These dental gloves are strong and durable to avoid snagging and tearing while donning and through long procedures
- **Low odor:** These gloves also provide low to no odor
- **Reduced allergy risk:** These neoprene gloves protect from latex Type I allergies
- **Suitable for patient contact:** Tested safe for oral examination, ensuring that the glove is safe for patient contact

Recommended For

- Enhanced tactile sensitivity and dexterity, especially for delicate procedures
- Enhanced grip in wet environments
- Extra comfort during long, sustained procedures
- Protection from Type I latex allergy in HCW's or patients
- Oral examinations

FEATURED TECHNOLOGIES

ERGOFORM™
Ergonomic Design Technology

MICRO-TOUCH® Everyday, Everywhere Protection

MICRO-TOUCH® premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
