

Previously known as: MICROGARD® 2300 STANDARD - Model 111

Lightweight, medium-duty yellow protective suit, delivering low-hazard chemical resistance.

- **Specialized protection:** Delivering light chemical protection*, the AlphaTec™ 2300 STANDARD Bound - Model 111's combination of a polyethylene barrier coating and bi-component nonwoven inner layer notably guards against inorganic liquid chemicals, including acids and bases
- **Increased practicality:** Practicality and usability are also enhanced by this protective body suit's robust lightweight design
- **Added security:** Bright yellow coloring heightens its visibility, avoiding accidents and improving workplace safety
- **Enhanced features:** In addition, it possesses a zip flap designed with a self-adhesive tape closure and a respirator-fit hood
- **Proven anti-static capabilities:** EN 1149-5-certified, this chemical protective suit is a safe, dependable option when handling electrical components

**CE Category III Type 5/6 protection*

Industries

- Life Sciences
- Automotive
- Agriculture
- Food Processing

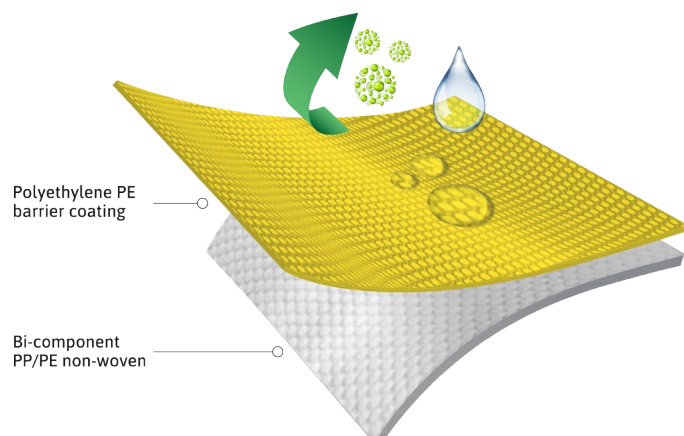

Applications

- Handling structural and body components
- Equipment maintenance and repair
- Equipment repair & maintenance
- Fibre Glass/Resin Applications/Ceramic Fibres
- Assembly & inspection of components
