

Thick natural latex rubber gloves, granting enhanced protection for heavy-duty tasks

- **Advanced protection:** 50% thicker (0.73mm/29 mil) than standard flock-lined gloves, AlphaTec® 87-955 heavy-duty chemical-resistant gloves are highly resistant to various detergents, alcohols, fats, ketones, salts, and alkalis
- **Enhanced cleanliness and durability:** Chlorination treatment cleanses and hardens their outer surface
- **Elevated comfort:** These heavy-duty protective gloves' pure cotton flocking limits sweat build-up, thereby improving wearer comfort with sustained wear
- **Assured quality:** In addition, these AlphaTec® gloves achieve an AQL of 1.5

Industries

- Construction
- Machinery and Equipment
- Infrastructure Maintenance
- Chemical

Applications

- Chemical processing and preparation
- Maintenance of plant and heavy equipment
- Janitorial use

Previously known as: Extra 87-955

Key Features

- **50% thicker natural latex rubber*:** High chemical resistance and durability
- **Chlorinated surface:** Assured cleanliness and further improved durability
- **Pure cotton flocking:** Limited perspiration build-up, for increased comfort

*compared with standard flock-lined gloves

Vulcanization Chemical Accelerators

- Natural rubber proteins
- Zinc Diethyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
