

## Extra long gloves offering reliable performance and chemical splash protection

- **Extended protection:** The extended 355mm length provides increases protection against cross-contamination risks
- **Comfort and durability:** Strong, comfortable nitrile material resists tearing and protects in the event of chemical splashes
- **Easy donning:** An extra wash during manufacturing makes these gloves ultra-smooth for easier donning, doffing and double gloving
- **Reduced allergy risk:** Manufactured without accelerators, helping to protect users from Type IV skin allergies
- **Secure grip:** Fully textured design enhances grip in laboratory, food-processing and other applications
- **Extra-long and thick design:** for enhanced protection against chemical splashes, rips and tears.

### Industries

- Electronics
- Food Processing
- Industrial
- Life Sciences
- Manufacturing
- Recycling and Waste Disposal

### Recommended For

- Food processing and handling
- Handling of tools
- Handling of paint/glue guns and sprayers
- Laboratory analysis
- Maintenance and equipment clean up
- Blending, compounding materials
- Chemical Handling

## TECHNICAL DATA SHEET

| Vulcanization Chemical Accelerators | <ul style="list-style-type: none"> <li>Made without accelerators</li> </ul> <p><i>Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.</i></p>      |

## PHYSICAL PROPERTIES

|                                         | Typical Values |             | Testing Method      |
|-----------------------------------------|----------------|-------------|---------------------|
| Length (mm/inches)                      | 355 / 14       |             | ASTM D3767,EN 420   |
| Freedom from Holes (Inspection level I) | 1.5 AQL        |             | ASTM D5151,EN 455-1 |
| Palm Thickness (mm/mils)                | 0.17 / 6.7     |             | ASTM D3767,EN 420   |
| Finger Thickness (mm/mils)              | 0.20 / 7.9     |             | ASTM D3767,EN 420   |
|                                         | BEFORE AGING   | AFTER AGING |                     |
| Elongation at Break (%)                 | ≥ 500          | ≥ 400       | ASTM D412           |
| Force at break (N)                      | ≥ 6            | ≥ 6         | EN 455-2            |
