

08-352

Neoprene dipped coating on an interlock knit liner

Previously known as: ScorpioTM 08-352

Neoprene work gloves featuring a rough finish, for superb grip in wet, slippery conditions

- Advanced protection: AlphaTec[®] 08-352 chemicalresistant gloves are 100% liquid-proof, guarding against a wide range of hazardous chemicals, preventing burns and other potential workplace injuries
- Heightened grip: In addition, these medium-duty safety gloves possess a textured finish that allows wearers to confidently handle wet and slippery components, increasing efficiency
- Elevated comfort: Thanks to their soft, stretchy cotton liner, AlphaTec[®] 08-352 protective gloves cushion the hand and absorb perspiration, preventing chafing
- Increased flexibility: Flexible work gloves by design, they grant increased dexterity and facilitate object handling, while ensuring convenient donning and doffing and reducing hand fatigue

- Chemical
- Automotive Aftermarket
- Logistics
- Machinery and Equipment
- Oil and gas
- Warehousing

Applications

- Equipment repair & maintenance
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Loading and unloading of proces equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Cleaning furnaces, distillation pumps, valves or lines and crackers BTX process

08-352

Neoprene dipped coating on an interlock knit liner

Previously known as: ScorpioTM 08-352

Key Features

- **Neoprene coating:** For assured liquid and chemical protection
- Rough finish: Stronger grip performance, for optimized productivity
- Interlock cotton knit liner: For soft, flexible industrial gloves

Vulcanization Chemical Accelerators

• Zinc Dibutyldithiocarbamate (ZDBC)

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
