

## **37-646**Improved grip, dexterity and flexibility

Previously known as: VersaTouch® 37-646

## Latex-free chemicalresistant gloves, designed for safe, efficient food handling

- Food handling compliance: AlphaTec<sup>®</sup> 37-646
   reusable industrial gloves possess food handling
   certification, making them ideal for food-related
   applications
- Specialized protection: Their tough nitrile compound composition helps ensure light, EN 374 Type B chemical resistance
- Reduced risks: They are unflocked, with a lower risk of lint contamination, and latex-free, presenting no risk of Type I allergies
- Enhanced grip: AlphaTec<sup>®</sup> 37-646 safety gloves also possess UltraGrip<sup>™</sup> technology, with a raised diamond grip pattern, for added grip even in wet conditions
- Improved durability: They also boast ANSI level 4 abrasion resistance
- Augmented dexterity: AlphaTec<sup>®</sup> 37-646 PPE gloves' nitrile make-up also grants them heightened dexterity

#### **Industries**

Food Processing

#### **Applications**

- Defeathering and skinning
- Primary cutting
- Deboning
- Slicing, cutting and shopping
- Steaming, frying and roasting
- Marinating
- Packing of fillets and ground meat
- Storing packed meats

# **37-646**Improved grip, dexterity and flexibility

Previously known as: VersaTouch® 37-646

### **Key Features**

- Food handling certification: Ideal for food-related applications
- Unflocked and latex-free: Reduced risk of contamination and allergens
- UltraGrip™ Technology: Superior grip, even in wet conditions

#### **Vulcanization Chemical Accelerators**

• Zinc Dibutyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

#### **Performance Standards**
