

58-835

Superior cut and chemical protection combined

Superior cut and chemical protection combined

- Specialized protection: AlphaTec® 58-835 chemical gloves' nitrile barrier protects against common chemicals
- Enhanced features: Their orange visible inner liner indicates when the shell is compromised, warning users.
- Heightened defenses: AlphaTec® 58-835 safety gloves' INTERCEPT™ Cut Resistance liner ensures EN ISO CUT F & ANSI/ISEA 105-2024 CUT A6 protection
- Tightened grip: ANSELL GRIP™ nitrile shell treatment delivers better grip for handling both wet and oily components
- Optimized durability: AlphaTec® 58-835 gloves achieve ANSI/ISEA 105-2024 ABRASION LEVEL 5 and EN ABRASION LEVEL 4 resistance, for longer wear
- Elevated comfort and dexterity: Higher gauge yarns and increased use of HPPE lead to a dramitic increase in comfort, tactility and dexterity
- Harm-free food handling: These AlphaTec® chemical and cut resistant gloves comply with EU and FDA food handing regulations

Industries

- Automotive
- Recycling and Waste Disposal
- Chemical
- Energy
- Metal fabrication

Applications

- Handling metal sheets & panels
- Handling materials with sharp or rough edges
- Removal of broken glassware
- Spill or leakage cleanup
- Assembling and mounting components
- Handling application & cleaning tools
- Transport if hazardous substances
- Handling sharp metal parts

58-835

Superior cut and chemical protection combined

Key Features

- Nitrile shell barrier: EN ISO 374 Type A resistance against common chemicals
- Orange visible indicator inner liner: Indicates when chemical protective gloves are cut, for superior safety
- INTERCEPT™ Cut Resistance Technology: EN ISO CUT F & ANSI/ISEA 105-2024 CUT A6 protection
