

# HyFlex™

## 11-518

Cut protection with high dexterity & longer wear life

Cut

Light Duty

## ANSI/ISEA 105-2024 A2 / EN ISO B cut protection delivering high dexterity & longer wear life

- **Extended durability:** PU coating provides over 60% longer wear life vs competitors\*, with EN and ANSI abrasion level 3 performance
- **High dexterity:** Thin, flexible liner ensures excellent control and tactility in daily use
- **Lightweight design:** HyFlex 11-518 gloves feature a seamless liner for a near barehanded feel and enhanced comfort
- **Advanced cut protection:** Dyneema® Diamond Technology fiber delivers ANSI/ISEA 105-2024 CUT A2 and EN ISO cut level B protection
- **Enhanced comfort:** D3 Pinky Knitting aligns with natural hand contours for improved fit and wearability

\* Comparison is based on Ansell lab tests under standardized conditions in December 2025 versus similar competitive gloves. Results may vary by application.

### Industries

- Automotive
- Machinery and Equipment
- Infrastructure Maintenance

### Applications

- Press injection molding
- Picking, fastening components
- Handling incoming goods
- Final assembly
- Assembly & inspection of components
- Applying finish to materials, products

# HyFlex™

## 11-518

Cut protection with high dexterity & longer wear life

### Key Features

- ♦ **Longer wear life:** PU coating for over 60% longer use vs competitors\*
- ♦ **High-performance cut protection:** Designed with next-generation HPPE
- ♦ **High dexterity:** Thin, flexible liner for comfort and control

\* Comparison is based on Ansell lab tests under standardized conditions in December 2025 versus similar competitive gloves. Results may vary by application.

### Vulcanization Chemical Accelerators

- Natural rubber proteins (in knitwrist elastic)

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

### Performance Standards & Regulatory Compliance
