

Multi Purpose

Light Duty

## Boosts precision and productivity with exceptional second-skin comfort and tactile control

- **Second-Skin Design:** Engineered with AEROFIT™ Technology, an innovative, flexible foam nitrile coating that delivers improved tactility, sensitivity and a more comfortable, breathable glove feel.
- **Premium Comfort:** Our thinnest nitrile multi-purpose glove for all-day wear. Overwhelmingly preferred for precision handling\*.
- **Proven Productivity:** Testing showed that users wearing HyFlex safety gloves with AEROFIT™ Technology completed precision tasks faster than when using comparable gloves on the market\*.
- **Certified Skin Safety:** Dermatologically tested, free from harmful substances. Each pair is post-washed for clean, skin-safe wear.
- **Touchscreen Compatibility:** Enables seamless interaction with most touchscreen devices while keeping gloves on.

\* Based on a survey of 52 glove wearers comparing Ansell gloves to the competitive gloves available on the market (May 2025); testing conducted with 11-844 gloves. Results may vary across other gloves in the series.

### Industries

- Automotive
- Machinery and Equipment
- Aerospace

### Applications

- Assembly of small parts
- Equipment repair & maintenance
- Applying finish to materials, products
- Fastening components, parts
- Seizing and finishing structural parts
- Assembling and mounting components
- Adjusting systems and screwing

# HyFlex®

ADVANCED MECHANICAL PROTECTION

## 11-814

Second-skin design for high-precision handling

### Key Features

- **AEROFIT™ Coating:** up to 30% thinner\* for exceptional tactility and control.
  - **Highly Breathable Liner:** delivers premium comfort for all-day wear.
  - **Productivity-Enhancing Design:** enables faster, more precise work.
- \* Versus standard Ansell glove with the same level of protection
