

## 2000 Apron with Sleeves - Model 214

Superior breathable microporous laminate technology

Previously known as: MICROGARD® 2000 Apron with Sleeves - Models 214

### Silicone-free protective apron with sleeves, made from breathable microporous laminate material.

- **Specialized protection:** This AlphaTec® protective apron with sleeves delivers excellent barrier protection against low-concentration liquid chemicals, liquid and particulate\* biological hazards
- **Heightened breathability:** Microporous laminate technology ensures water vapor (perspiration) can escape easily, resulting in a safety apron that provides breathable comfort
- **Reduced contamination risks:** This apron's low-linting microporous polyethylene laminate nonwoven material is also silicone-free, reducing contamination risks and remaining paint and finish process friendly
- **Enhanced features:** Sleeves offer more comprehensive barrier protection, while bound seams ensure superior strength and a combination of rear Velcro® fastening and elasticated wrists facilitate a more comfortable fit

\*filters 100% of particulates down to 0.01 microns in size

## Industries

- Life Sciences
- Metal fabrication
- Food Processing

## Applications

- Clean room cleaning and preparing
- Production line support & maintenance
- Maintenance of plant and machines
- Veterinary Services
- Cleaning of plant and machines
- Body painting including surface inspection

## KEY FEATURES & BENEFITS

- **Protective barrier:** Low-concentration liquid chemicals, liquid and particulate biohazards
- **Low-linting microporous laminate:** Fewer contamination risks, better ventilation
- **Silicone-free formulation:** Paint and finish process friendly
