

GAMMEX™ Latex Underglove

S U R G I C A L G L O V E S

Green latex under gloves for easy breach detection and moisturizing hand protection when double gloving

- **Optimized skin hydration:** These powder-free latex under gloves feature an odorless, water-based skin moisturizer containing glycerol and dimethicone* to help retain moisture and rehydrate skin throughout the duration of use
- **Added safety:** When contrasted with a cream or white-colored outer glove, these green under gloves offer quick and easy breach detection for glove wearer's added protection
- **Effortless donning and doffing:** The internal polymer coating of the GAMMEX™ Latex Underglove helps to facilitate effortless dry and damp hand donning, whether it be the first don or during intra-operative changes
- **Elevated comfort:** The GAMMEX™ Latex Underglove is sterile and made using proprietary anatomic-shaped formers and a soft formulation for ergonomic fit and comfort to help minimize hand fatigue during rigorous procedures

*built-in moisturizing agents

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

Recommended For

- Use as an underglove when double gloving
- All surgeries, especially high risk procedures in orthopaedics, trauma, and cardiac
- Damp donning
- Easy identification of a glove breach
