

# ENCORE® Latex Ortho

S U R G I C A L   G L O V E S

## Extra-thick latex surgical gloves, designed to withstand the rigors of surgery using power tools

- **Optimal thickness:** On average, ENCORE® Latex Ortho surgical gloves are 50% thicker than standard Ansell latex surgical gloves, providing outstanding hand protection for rigorous ortho procedures, especially from the use of power tools and where bone fragments are present
- **Enhanced grip:** The heavy-textured external finish of these sterile ortho surgical gloves enhances grip performance, facilitating the secure handling of power tools in both dry and wet conditions
- **Effortless donning:** ENCORE® Latex Ortho gloves are powder-free, with a unique donning aid technology, featuring a polymer-lined inner coating, for speedy and easy dry and damp hand donning, whether it is the first don or during intra-operative changes
- **Chemo-tested for safe use\*\*:** Tested for safe use with chemotherapy drugs in accordance with ASTM D6978 requirements

\*\*contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

### Recommended For

- All surgeries, especially high risk procedures in orthopaedics, trauma, and cardiac
- Enhanced grip in wet environments
- Damp donning

### FEATURED TECHNOLOGIES

## ENCORE® The Confidence to Perform

Dedicated to delivering optimized solutions engineered to provide a high degree of confidence to surgeons, O.R. nurses and surgical technicians seeking protection with a high level of dexterity, comfort and grip so they can perform at their best.
