

ACTIVARMR™

Electrical Insulating Gloves Class 1 - RIG116Y

Comfortable electrical insulated gloves, offering sturdy, flexible electrical protection

Previously known as: E007

Electrical

Medium Duty

Electrical safety gloves that offer both safety and comfort, for reliable hand protection*

- **Heightened durability and flexibility:** Made from latex, using an environmentally conscious dipping process, ActivArm[™] Electrical Insulating Gloves Class 1 - RIG116Y are both flexible and durable
- **Advanced ergonomics:** These electrical gloves' non-splayed fingers and hand-at-rest shape reduce hand fatigue
- **Elevated comfort:** A flared cuff design ensures space for clothing and ventilation
- **Increased practicality:** These insulated rubber gloves have a smooth, case-hardened finish, making donning and doffing easy
- **Specialized defenses:** They are arc flash certified (APC 2 in combination with 96-003 leather protectors), can withstand a touch voltage AC maximum of 7500 V (DC maximum 11250) and tolerate acid, ozone and very low temperatures*
- **Certified protection:** They also meet applicable NFPA, OSHA and CSA standards
*Category A, Z and C respectively

Industries

- Automotive
- Construction
- Energy

Applications

- Applications with risk of touch voltage
- Electrical Contractors
- Hybrid engine manufacturing and repair
- Maintenance Repairs and Operations in all industrial environments (MRO)
- Mass Transit Repair and Maintenance
- Power maintenance, repair & transmission
- Telecom repair near electrical wires

ACTIVARMR™

Electrical Insulating Gloves Class 1 - RIG116Y

Comfortable electrical insulated gloves,
offering sturdy, flexible electrical
protection
