

Durable and lightweight, medium-duty protective barrier gown with chemical resistance.

- **Improved defenses:** The AlphaTec™ 2300 STANDARD Gown Bound - Model 214 is made of a polyethylene (PE) barrier coating with a bi-component inner layer, which provides an excellent protective barrier to numerous harmful inorganic liquid chemicals, including acids and bases
- **Enhanced features:** This durable but lightweight protective overgarment offers high visibility due to its bright yellow color
- **Added protection:** In addition, the AlphaTec™ 2300 STANDARD Gown Bound - Model 214 offers internal stitching that is overlapped, ensuring increased strength and an effective barrier to liquids and particulates

Industries

- Life Sciences
- Automotive
- Agriculture
- Food Processing

Applications

- Handling structural and body components
- Equipment maintenance and repair
- Equipment repair & maintenance
- Fibre Glass/Resin Applications/Ceramic Fibres
- Assembly & inspection of components

KEY FEATURES & BENEFITS

- ◊ **Good protective barrier:** Greater personal protection from chemicals
- ◊ **Bright yellow color:** Ideal protective garment for dark conditions
- ◊ **Stitched and taped seams:** Increased strength assured
