

Protective body suit combining enhanced safety, durability and comfort.

- **Heightened protection:** The AlphaTec® 2500 STANDARD Ultrasonically Welded - Model 122 hazard protection suit offers advanced personal protection from biological agents in accordance with EN 14126 and ASTM F1671 standards
- **Reduced risks:** These chemical-resistant coveralls are produced from breathable fabric to lower heat stress risk and feature bootends with anti-slip soles
- **Improved defenses:** As it is ultra-low linting, this protective outer garment reduces the risk of cross contamination in critical areas
- **Added features:** In addition, this anti-static suit complies with EN 1149-5 and AATCC 76 requirements and is designed with ultrasonically welded seams that provide a robust liquid and particle barrier

Industries

- Life Sciences
- Chemical
- Food Processing
- Industrial
- Law Enforcement

Applications

- Transferring liquids and solids
- Unexpected leakages spills or other releases
- Plant disinfection and sanitization
- Emergency Response
- Spill or leakage cleanup
- Maintenance
- Contaminated Environments

KEY FEATURES & BENEFITS

- **EN 14126 and ASTM F1671 compliance:** For improved workplace safety
- **Breathable fabric:** Air and water vapor permeable, to avoid heat stress
- **Ultra-low linting:** For protective suits with reduced contamination risk
