

4000 Trousers - Model 301

Innovative multi-layer chemical barrier technology

Protective trousers offering innovative, multi-layer chemical barrier technology.

- Increased defenses: Featuring a lightweight yet robust textile feel, the AlphaTec® 4000 Trousers Ultrasonically Welded & Taped - Model 301 grants superior personal protection, with over 200 chemicals permeation tested, including chemical warfare agents
- Enhanced protection: Designed to protect, this protective garment shields against a wide range of organic and inorganic chemicals as well as biological agents
- Reduced contamination risks: Owing to its siliconefree design, this chemical protective garment lowers the risk of contamination

Industries

- Chemical
- Life Sciences
- Mining
- Fire and Rescue
- Energy
- Automotive Aftermarket
- Food Processing

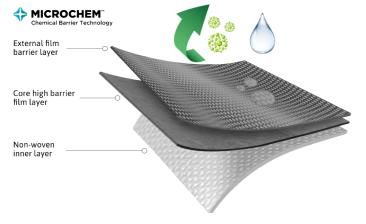

Applications

- Contaminated Environments
- Chemical Handling
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Loading and unloading of proces equipment
- Raw material sample collection
- Concentration mixing and palletisation
- Hazmat response
- Assembly and disassembly of equipment

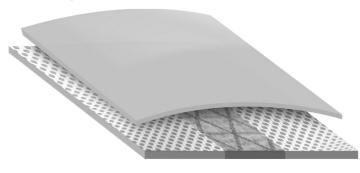

KEY FEATURES & BENEFITS

- Excellent chemical resistance: Protects from more than 200 chemicals
- **Designed to protect:** Shields from chemical and biological hazards
- Free from silicone: Reduces the risk of contamination
