

# HyFlex™

## 11-605

Finger tip coated glove for light and delicate applications

Multi Purpose

Light Duty

## Lightweight industrial gloves that blend dexterity and sensitivity for delicate handling

- **Heightened tactility:** HyFlex™ 11-605 polyurethane gloves boast high tactile sensitivity, thanks to a number of characteristics, including finger-dipped polyurethane coating
- **Greater choice:** While these HyFlex™ gloves are finger-dipped, enhancing their tactile sensitivity, near-identical HyFlex™ 11-600 and 11-601 models are palm-dipped, for added protection
- **Augmented dexterity:** HyFlex™ 11-605 safety gloves are also lightweight, flexible and dexterous, making them ideal for the precise handling of small, delicate components
- **Elevated comfort:** Designed with a knitwrist cuff, they ensure reduced hand fatigue and enhanced comfort
- **Improved durability:** The HyFlex™ 11-605 model satisfies ANSI/ISEA 105-2024 ABRASION LEVEL 1 standards, for longer wear

### Industries

- Automotive

### Applications

- Assembly & inspection of components
- Assembling and mounting components
- Adjusting systems and screwing

# HyFlex™

## 11-605

Finger tip coated glove for light and delicate applications

### Key Features

- ◊ **Finger-dipped:** Maximum tactility for perfect precision handling
- ◊ **PU coating and nylon liner:** For added lightness and dexterity
- ◊ **Light color:** PPE gloves suited to less dirt-prone applications

### Performance Standards & Regulatory Compliance
