

MICRO-TOUCH® DermaClean® Sterile

Performance Series

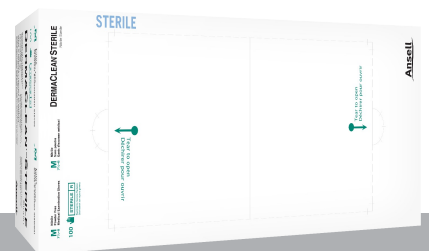

Latex, powder-free, sterile examination glove with excellent grip properties

- **Comfortable fit:** Ansell's natural rubber latex formulation ensures flexibility in a comfortable, well-fitting glove
- **Sterile:** Smartly packaged as a single sterile glove per pouch, these gloves are suitable for handling instrumentation, test tubes or infusion equipment in non-surgical environments
- **Secure grip:** The textured outer surface provides an excellent grip in wet and dry conditions
- **Easy donning:** The smooth, chlorinated inner surface results in easier donning
- **Reduced allergy risk:** Low-allergenicity latex reduces risk of contact dermatitis due to absence of thiurams and mercaptobenzothiazoles

CAUTION: This product contains natural rubber latex, which may cause allergic reactions

Recommended For

- Sterile procedures outside of the O.R.
- Brief, low-risk examination procedures

MICRO-TOUCH™ Everyday, Everywhere Protection

MICRO-TOUCH™ premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
