

# MICRO-TOUCH™ NITRAFREE™ Blue

H i g h T o u c h

## Comfortable gloves that offer reliable protection with low dermatitis potential

- **Reduced allergy risk:** MICRO-TOUCH™ NitraFree™ nitrile medical exam gloves are manufactured without accelerators for low dermatitis potential — these gloves prevent instances of Type I latex allergies and Type IV chemical allergic reactions
- **Unique color:** Their unique, berry-blue coloring provides contrast while masking blood and stains
- **Heightened tactility:** The thin and light weight nitrile formulation provides enhanced tactile sensitivity and comfort for longer wear time
- **Specialized protection:** These gloves are also tested for use with chemotherapy drugs\* and protect against fentanyl and gastric acid (vomit)

\*see product packaging for details

## Recommended For

- Protection from latex Type I allergy and minimize chemical Type IV allergies in HCW's or patients
- Tested for use with chemotherapy drugs
- Standard patient examinations

## MICRO-TOUCH™ Everyday, Everywhere Protection

MICRO-TOUCH™ premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
