

Flexible comfort with high-level cut  
and lightweight impact protection

Impact

Light Duty

**The glove combines extreme cut resistance (ANSI A9 / EN ISO F+) with flexibility and a durable microfoam nitrile coating that reduces replacement costs.**

- **Lightweight Impact Protection:** RINGERS™ R590 gloves deliver low-profile Level 1 TPR impact protection with up to 30% less weight than comparable gloves\*, offering enhanced comfort, dexterity, and reduced hand fatigue.
- **Extreme cut-resistance:** ANSI A9 / EN ISO F+ ratings deliver reliable safety without compromising comfort or dexterity.
- **Increased Grip & Durability:** Microfoam nitrile coating reduces replacements costs and delivers reliable grip for extended wear.
- **Reinforced for Longevity:** Thumb Crotch Reinforcement (TCR) strengthens high-wear zones to extend glove life and cut replacement costs.
- **Touchscreen Compatible:** Allows the wearer to work multiple touchscreen devices while keeping gloves on.

\*Versus Ansell previous generation impact gloves

#### Industries

- Automotive
- Machinery and Equipment
- Chemical
- Oil & Gas
- Aerospace

#### Applications

- Light assembly tasks
- Loading and unloading material or worked parts
- Maintenance
- Handling parts with sharp, rough edges
- Grinding
- Inspection (picking, checking and marking)
- Assembly of small parts
- Assembly and disassembly of equipment

Flexible comfort with high-level cut and lightweight impact protection

## Key Features

- ♦ **Optimized Construction:** up to 30% lighter, and thinner than comparable gloves\*
- ♦ **Lightweight Impact protection:** Level 1 TPR shields hands without restricting movement.
- ♦ **Extreme cut-resistance:** ANSI A9 / EN ISO F+ deliver comfort and safety

\*Versus Ansell previous generation impact gloves
