

Superior cut and chemical protection combined

- **Specialized protection:** AlphaTec™ 58-302 chemical gloves' nitrile barrier protects against common chemicals
- **Enhanced features:** Their orange visible inner liner indicates when the shell is compromised, warning users.
- **Heightened defenses:** AlphaTec™ 58-302 safety gloves' INTERCEPT™ Cut Resistance liner ensures EN ISO CUT F & ANSI/ISEA 105-2024 CUT A6 protection
- **Tightened grip:** ANSELL GRIP™ nitrile shell treatment delivers better grip for handling both wet and oily components
- **Optimized durability:** AlphaTec™ 58-302 gloves achieve ANSI/ISEA 105-2024 ABRASION LEVEL 5 and EN ABRASION LEVEL 4 resistance, for longer wear
- **Elevated comfort and dexterity:** Higher gauge yarns and increased use of HPPE lead to a dramatic increase in comfort, tactility and dexterity
- **Harm-free food handling:** These AlphaTec™ chemical and cut resistant gloves comply with EU and FDA food handling regulations

Industries

- Automotive
- Recycling and Waste Disposal
- Energy
- Metal fabrication

Applications

- Spill or leakage cleanup
- Removal of broken glassware
- Handling metal sheets & panels
- Handling materials with sharp or rough edges
- Handling application & cleaning tools
- Handling sharp metal parts
- Assembling and mounting components

Key Features

- ◊ **Nitrile shell barrier:** EN ISO 374 Type A resistance against common chemicals
- ◊ **Orange visible indicator inner liner:** Indicates when chemical protective gloves are cut, for superior safety
- ◊ **INTERCEPT™ Cut Resistance Technology:** EN ISO CUT F & ANSI/ISEA 105-2024 CUT A6 protection
